## APJ ABDUL KALAM TECHNOLOGICAL UNIVERSITY

FIRST/SECOND SEMESTER B.TECH DEGREE EXAMINATION, MAY 2019

## **Course Code: ME100**

|                                   |        | Course Name: BASICS OF MECHANICAL ENGINEERING  |       |  |  |
|-----------------------------------|--------|--|-------|--|--|
| Max. Marks: 100 Duration: 3 Hours |        |  |       |  |  |
|                                   |        | PART A   | Marks |  |  |
| 1                                 | a)     | Answer any two questions, each carries 15 marks.  State Zeroth law of thermodynamics. Explain its significance.        | (5)   |  |  |
|                                   | b)     | Prove the equivalency of Kelvin Planck and Clausius statements.  | (5)   |  |  |
|                                   | C)     | Write a short note on thermodynamic work.  | (5)   |  |  |
| 2                                 | a)     | Compare intensive and extensive properties with examples.  | (5)   |  |  |
|                                   | b)     | With the help of a neat diagram explain the working of a reaction steam turbine  | (10)  |  |  |
|                                   |        | clearly showing the variation of steam pressure and velocity inside the turbine.                                       |       |  |  |
| 3                                 | a)     | Compare an open cycle and closed cycle gas turbine.  | (5)   |  |  |
|                                   | b)     | With the help of a neat diagram explain the working of 4 stroke cycle diesel   | (10)  |  |  |
|                                   |        | engine.  |       |  |  |
|                                   |        | PART B   |       |  |  |
| 4                                 | a)     | Answer any two questions, each carries 15 marks.  Write a short note on the impact of refrigerants on environment.     | (5)   |  |  |
|                                   | b)     | With neat sketches explain the working of window air conditioning system.  | (10)  |  |  |
| 5                                 | a)     | Derive the expression for the ratio of belt tensions.  | (10)  |  |  |
|                                   | b)     | Write a short note on the classification of gears.   | (5)   |  |  |
| 6                                 | a)     | Explain various desirable properties of refrigerants.  | (4)   |  |  |
|                                   | b)     | With a neat sketch explain the working of an internal expanding shoe brake.  | (6)   |  |  |
|                                   | c)     | Write a short note on major components of automobiles.   | (5)   |  |  |
|                                   | PART C |  |       |  |  |
| 7                                 | a)     | Answer any two questions, each carries 20 marks.  With the help of a neat diagram explain the thermit welding process. | (8)   |  |  |
|                                   | b)     | Explain the extrusion process. Compare direct and indirect extrusion process.  | (6)   |  |  |
|                                   | c)     | Write a short note on various casting defects.   | (6)   |  |  |
| 8                                 | a)     | Explain powder metallurgy. Narrate various steps in powder metallurgy.   | (5)   |  |  |
|                                   | b)     | With the help of a diagram mark the parts of a drilling machine. Explain any   | (8)   |  |  |
|                                   |        | four operations performed on a drilling machine.   |       |  |  |
|                                   | c)     | With neat sketches explain the up milling and down milling process.  | (7)   |  |  |
| 9                                 | a)     | Explain different desirable properties of moulding sand.   | (4)   |  |  |

- (b) Compare different rolling mills with neat sketches. (8)
- (c) With a neat sketch explain the principal parts of a shaper and discuss major (8) operations performed in a shaper.
