Reg No.:	Name:

APJ ABDUL KALAM TECHNOLOGICAL UNIVERSITY

Seventh semester B.Tech examinations (S), September 2020

Course Code: CE407

		Course Name: TRANSPORTATION ENGINEERING - II	
M	ax. I	Marks: 100 Duration: 3	Hour
		PART A	
		Answer any two full questions, each carries 15 marks.	Mark
1	a)	Enumerate the role of Indian Railways in National development.	(5)
	b)	A 6 ⁰ curve diverges from a 4 ⁰ main curve in reverse direction in the layout of a	(10)
		B.G. track. Speed on branch line is restricted to 35 kmph. Determine the restricted	
_	,	speed on main line.	(5)
2	a)	If the ruling gradient is 1 in 150 on a particular section of Broad Gauge track and	(5)
		at the same time a curve of 4 degree is situated on this ruling gradient, what	
		should be the allowable ruling gradient?	
	b)	List out any four different urban rail-transits in India. What are tube-railways?	(5)
	c)	Sketch the typical cross-section of a railway track	(5)
3	a)	What is coning of wheels? Why is it necessary?	(5)
	b)	Discuss wave theory and percussion theory with respect to creep of rails.	(5)
	c)	Discuss any five factors affecting the selection of a good alignment of a railway	(5)
		track.	
		PART B	
		Answer any two full questions, each carries 15 marks.	
4	a)	Explain about any four advanced technical remedial aids or measures for	(8)
		prevention of railway accidents.	
	b)	On a straight B.G. track, a turnout takes off at an angle of 6 ⁰ 42'35". Design the	(7)
		turnout if angle of switch is equal to 1°8'00", length of switch rails is 4.73 m, heel	
		divergence is equal to 11.43 cm and straight arm is equal to 0.85 m.	
5	a)	Discuss about the maintenance and renewal of rails, sleepers and track fittings.	(8)
	b)	List out the different types of functional signals. Discuss in detail the working of	(7)
		any one signal with neat sketch.	

00000CE407121901

6	a)	What is the purpose of providing marshalling yards? What are the main siding	(8)
		features of marshalling yards? Support your answers with appropriate figures.	
	b)	What is packing? Explain the three different types of packing	(7)
		PART C	
		Answer any two full questions, each carries 20 marks.	
7	a)	Explain the three systems of mechanical ventilation of a tunnel with neat sketch.	(10)
	b)	How do you classify harbours? Explain in detail	(10)
8	a)	List out different methods of tunnelling in hard rocks. Explain any one of the	(10)
		method.	
	b)	Discuss the three methods of mound construction.	(10)
9	a)	Draw neat sketch and explain the forces created due to wave action against a	(10)
		marine structure. What are the phenomena occurring due to these forces?	
	b)	Explain the four different stages in setting out the centre line of tunnel.	(10)
